-- Aliens can be present with us in an invisible state and can make themselves only partially visible.

-- Abductees receive marks on their bodies other than the well-known scoops and straight-line scars. These other marks include single punctures, multiple punctures, large bruises, three- and four-fingered claw marks, and triangles of every possible sort.

-- Females abductees often suffer serious gynecological problems after their alien encounters, and sometimes these problems lead to cysts, tumors, cancer of the breasts and uterus, and to hysterectomies.

-- Aliens take body fluids from our necks, spines, blood veins, joints such as knees and wrists, and other places. They also inject unknown fluids into various parts of our bodies.

-- A surprising number of abductees suffer from serious illnesses they didn't have before their encounters. These have led to surgery, debilitation, and even death from causes the doctors can't identify.

-- Some abductees experience a degeneration of their mental, social, and spiritual well-being. Excessive behavior frequently erupts, such as drug abuse, alcoholism, overeating, and promiscuity. Strange obsessions develop and cause the disruption of normal life and the destruction of personal relationships.

-- Aliens show a great interest in adult sexuality, child sexuality, and in inflicting physical pain on abductees.

-- Abductees recall being instructed and trained by aliens. This training may be in the form of verbal or telepathic lessons, slide shows, or actual hands-on instruction in the operation of alien technology.

-- Abductees report being taken to facilities in which they encounter not only aliens but also normal-looking humans, sometimes in military uniforms, working with the alien captors.

-- Abductees often encounter more than one sort of alien during an experience, not just the grays. Every possible combination of gray, reptoid, insectoid, blond, and widow's peak have been seen during single abductions, aboard the same craft or in the same facility.

-- Abductees--"virgin" cases--report being taken to underground facilities where they see grotesque hybrid creatures, nurseries of hybrid humanoid fetuses, and vats of colored liquid filled with parts of human bodies.

-- Abductees report seeing other humans in these facilities being drained of blood, being mutilated, flayed, and dismembered, and being stacked, lifeless, like cords of wood. Some abductees have been threatened that they, too, will end up in this condition if they don't cooperate with their alien captors.

-- Aliens come into homes and temporarily remove young children, leaving their distraught parents paralyzed and helpless. In cases where a parent has been able to protest, the aliens insist that "The children

belong to us."

-- Aliens have forced their human abductees to have sexual intercourse with aliens and even with other abductees while groups of aliens observe these performances. In such encounters, the aliens have sometimes disguised themselves in order to gain the cooperation of the abductee, appearing in such forms as Jesus, the Pope, certain celebrities, and even the dead spouses of the abductees.

-- Children abductees sometimes show a new and obsessive interest in their own genitalia after alien encounters, saying that their abductors who come at night have been touching these parts of their bodies.

-- Aliens perform extremely painful experiments or procedures on abductees, saying that these acts are necessary but giving no explanation why. Abductees' eyes are painfully removed from the sockets, allowing the aliens to scrape the area or implant devices into the area before the eyeballs are replaced, for instance. Some abductees are subjected to painful constrictions, often around the head, chest and extremities. Painful genitalia and anal probes are performed, on children as well as adults.

-- Aliens make predictions of an imminent period of global chaos and destruction. They say that a certain number of humans--and the number varies dramatically from case to case--will be "rescued" from the planet in order to continue the species, either on another planet or back on earth after the destruction is over. Many abductees report that they don't believe their alien captors and foresee instead a much more sinister use of the "rescued" humans.

In every instance from this list, there are multiple reports from unrelated cases, confirming that such bizarre details are not the product of a single deranged mind. These details are convincing evidence that, contrary to the claims of many UFO researchers, the abduction experience isn't limited to a uniform pattern of events. This phenomenon simply can't be explained in terms of cross-breeding experiments or scientific research into the human physiology.

SPIRITUALLY ENLIGHTENED?

And it becomes clear from these details that the beings who are doing such things can't be seen as spiritually enlightened, with the best interest of the human race in mind. Something else is going on, something far more painful and frightening, in many, many abduction encounters.

There is a theory current in ufological research that says abductees who perceive their experiences in a negative way only do so because they themselves aren't spiritually or psychically advanced. Persons with higher cosmic development have positive alien encounters, so the theory goes, and those who have painful or frightening experiences are merely spiritual Neanderthals. This is a pet theory of researchers who claim that aliens, whether objectively real or not, serve as "mirrors" of our spiritual nature, on an individual or a species-wide basis. Strieber has voiced this theory, for instance, in *Majestic*, where he says, "In the eyes of the others [the aliens], we who met them saw ourselves. And there were demons there."
