- God showed me in visions that America's economy will fall. It is well on it's way there now. Buisnesses are moving away, manufacturing is being ripped right out of america, and many other things are occuring that are draining Americas funds, like, war on terrorism, natural disasters, etc. This will probably happen without notice. One day, it will seem o.k., and the next day, the banks are closed, atm's out of order, pensions will fail. America has run up a deficit that was unimaginable just a few years ago. That means that much more was spent than came in. It's just a matter of time. There may be no warning of this, except for the warning Jesus gave me, and others. Here are the visions God gave me.
- (1)Economic collapse for America-vision recieved about October of 2002-In this vision, I saw the BBc news front page like when you click onto it from the internet, and one of the headline's read, "Bushs Washington Collapses"

- (5)America's economy will collapse-vision recieved 12-1-2003-I left a bank, and was talking with an advisor there. Many things were spoken of. I told God showed me in visions that the economy will collapse, and he let me know that he believes it wont. While driving, and rehearsing this saying to my self the somthing like the economy will collapse, I saw him in a vision, and he said, "no it won't". The economy will collapse.
- (6)failed economy-visions received 4-11-2004-twice I saw president Bush, and he said, "failed economy".

In the second vision, I saw a book, and the nmae of the book was, "ECONOMIC COLLAPSE", which, both of these is coming to america.
- (8)the crash and fall of USA's economy-visions recieved 5-7-2004-while praying, I heard, "the economy", and I said , "what about the economy", and I saw President Bush in a vision, and he said, "its collapsing". I later saw Warren Buffet in a vision, and he said, "it will collapse", and I said, "what does that mean", and I saw Warren Buffet again, and he said, "the banks will close"
- (9)Economic collapse-vision recieved 1-13-2004-while praying, I heard something like, "the economy is collapsing", then I saw president Bush in a vision, and I heard these words, "he knows".
